ATTENTION Oakland County EMS

As part of EQIP, the OCMCA has completed the In-Service Trainings on the Transportation Protocol and Communications with Emergency Facilities. Both need to be implemented by March 1, 2016, along with the following protocols:

- 1. MCI Protocols:** The Oakland County Mass Casualty Incidents Protocol has been completely re-written as a supplement to the State MCI Protocol. Included are the following:
 - State MCI Protocol
 - Oakland County MCI Supplement
 - MCI Assignment Checklists
 - MCI Logs
- 2. Distribution of Antibiotic Caches to Emergency Personnel:** This was part of our original MCI Protocol as an appendix, which was pulled out and made its own protocol.
- 3. State Inter-Facility Transfer Procedure:** New protocol.

Please note that Crittenton Hospital is a Provisional Level 3 Trauma Center. The Transportation Protocol explains what type of trauma patients may be transported to a Level 3 Trauma Center.
