ATTENTION Oakland County ALS

It has come to our attention that Epinephrine 1:10,000 is affected by a national shortage. Paramedics opening the drug box may find a “kit” for the Epi 1:10,000 in place of the prefilled syringes. Pictures are provided below. Please make your paramedics aware of the possibility of coming across a box with the “kits” rather than the pre-fills. The “kit” contains the following:

**Epi 1:1,000 vial or ampule**

**10 ml Normal Saline (NS)**

**10 ml Syringe with needles**

Directions should be listed on the “kit”, which includes:

Dilute 1 mg/ml epinephrine from the ampule/vial with 9 ml NS for a final concentration: 1 mg Epi/10ml

In the next week, we will be sending out a voice-over PowerPoint training for your perusal.

If you have any questions, please contact me at 248 975-9704. Thank you for your help and support.

**PLEASE CONTACT THE OCMCA WITH ANY QUESTIONS OR CONCERNS**
