ATTENTION Oakland County EMS

The company that makes the LMA® Mucosal Atomization Device is recalling most of its stock. In addition, there is still a shortage of the device. Guidance for this recall and shortage is as follows:

For BLS and MFR Naloxone Kits: use any Kit in your possession, even if the atomizer is on the recall list. If you are not able to obtain another kit, use good basic airway procedures until ALS arrives or you arrive at the hospital.

For ALS: The preferred administration method of any drug is IV or IM until the shortage is over.

If you have any questions, please call the OCMCA office at 248 975-9704.
