Revised Date:

Section: MR1

MEDICATIONS (General)

This document is reference only – refer to OCMCA Protocols for treatment and correct dosing

A Medication Reference Section is ***NOT*** protocol.

Medication Reference Section do not address licensure level, pre/post radio requirements, or other medications/procedures/assessments that may be required between initial dose and subsequent doses.

Medication Reference Section apply to the Michigan standardized EMS protocol suite Sections 1-10; therefore indications/contraindications are aligned with protocol restrictions (such as allowable age for administration) and may be more confining than the actual indications/contraindications of the medication.

Age:

1. Adult: patient > 14 years of age (will appear as “Adult” in the Medication Reference Section without age explanation)
2. Pediatric: patient ≤ 14 years of age (will appear as “Pediatric” in the Medication Reference Section without age explanation)
3. A medication with an age restrictions/considerations will be expressed as such in the Medication Reference Section.

Indications:

1. Indication(s) listed are in conjunction with protocols, there may be other uses for which EMS is not authorized to use a medication.

Contraindications:

1. Hypersensitivity to a medication is a contraindication to that medication. This applies to ALL medications and will not be restated in Medication Reference Section.
