Revised Date:

Section 8.105

Equipment

The patient-care equipment carried on MFR, BLS or ALS vehicles is defined in the State of Michigan minimum equipment list. Oakland County Life Support Agencies shall not carry other EMS equipment without OCMCA authorization. Authorization consists of requesting a review of the equipment by PSRO, for MCA approval. The following equipment list must be carried unless stated otherwise. Each agency must choose a device type (FDA approved, when applicable) with their Medical Control Hospital. The OCMCA considers any item on this list that is FDA approved for EMS use, as approved by the OCMCA.

Mandatory Equipment

All licensed EMS vehicles:

1. Anything listed on the State of Michigan minimum equipment list for the specific vehicle license level.
2. Mass Casualty Triage Tape

ALS vehicles

1. 12 lead ECG Capabilities

Optional Equipment

All licensed EMS vehicles:

1. Non-invasive Cardiac Compression Device as approved by the OCMCA.
2. CPAP/BiPAP Device
3. Pelvic Binder
4. SAD Holder
5. Tracheal tube introducer (i.e. Bougie)
6. Hemostatic Dressings
7. Commercial Chest Seals
8. Spit Hoods
9. Blanket Warmers

MFR Vehicles

1. Glucometer
2. Oral glucose paste

ALS vehicles only

1. Commercial Percutaneous Cricothyrotomy: Pertrach or Quicktrach only
2. Video Laryngoscope
4. IV Warmer
5. Venoscopes
