Initial Date: 9/14/2023
Revised Date: 5/14/2026 Section 8.105

Equipment

The patient-care equipment carried on MFR, BLS or ALS vehicles is defined in the State of Michigan minimum equipment list. Oakland County Life Support Agencies shall not carry other EMS equipment without OCMCA authorization. Authorization consists of requesting a review of the equipment by PSRO, for MCA approval. The following equipment list must be carried unless stated otherwise. Each agency must choose a device type (FDA approved, when applicable). Any item on this list that is FDA approved for EMS use shall be considered approved by the OCMCA. If an item category is not subject to FDA approval, the item is deemed approved by the OCMCA provided it is a commercially available product intended for EMS use.

Mandatory Equipment

All licensed EMS vehicles:

1. Anything listed on the State of Michigan minimum equipment list for the specific vehicle license level.
2. Mass Casualty Triage Tape

ALS vehicles
