## **ATTENTION Oakland County EMS Providers and Hospitals**

The OCMCA has created a web page resource on our website that is intended to be used by our EMS agencies and providers for all things Coronavirus (COVID-19). You may access the page by going to [ocmca.org](http://ocmca.org) and click on the Coronavirus (COVID-19) tab on the left side of the page.

A few highlights of our web page include:

- The OCMCA now offers a new podcast feature. The first podcast is live and downloadable on the COVID-19 page. The podcast features Dr. McGraw and Dr. Gardner discussing the facts about COVID-19, as we know them today. More podcasts will be available as updates occur.
- Both Emergency Protocols for COVID-19 are on the website page, including:
  1. Emergency Protocol 8.37, Person Protection During Treatment of Patients at Risk for Coronavirus Disease and Decontamination of Equipment after use – 2-26-20
  2. Emergency Protocol 8.38, Destination and Transport of Patients at Risk for Coronavirus – 2-26-20
- A memo from the State BETP.
- Credible websites for current updates.

Push notifications from the OCMCA App will occur as updates become available. If you have any questions, please contact the OCMCA at 248 975-9704.
